The 12,7 HMG NSW UTIOS is an automatic machine gun fed by ammunition 12,7 x 107 mm. It can be mounted on remote controlled weapon stations (ZSMU) and on mounts like: pedestal, tank, vehicle hatch, universal tripod and ground tripod. The HMG can be used in all climate zones, weather and lighting conditions.

The WKM-Bm Heavy Machine Gun is a version of the NSW Utios adapted for 12.7x99 mm NATO (.50 BMG) ammunition.

Main characteristics:

- light weight and modern construction in comparison with competitive HMGs
- high rate of fire
- reliability
- user-friendly weapon
- special technology which protects HMG against influence of humidity and sea water.
